

## **Nanette Lockwood, JD, PE**

*Sr. Director, Policy & Advocacy,  
Center for Energy Efficiency and Sustainability*

Nanette Lockwood serves as Senior Director of Policy and Advocacy of the Center for Energy Efficiency & Sustainability at Trane Technologies (CEES) and is responsible for advocating for policy that drives sustainable operations and demand for low carbon technologies around the world.

In addition, Lockwood serves as a thought leader in climate and energy policies and represents the company's international efforts in the United Nations Framework Convention on Climate Change and the Montreal Protocol. She has more than 16 years of building codes, standards and policy advocacy experience at the state and national level. Prior areas of focus include environmental remediation, natural disaster resistant building design, and **global** government affairs.

Lockwood is a Florida registered professional environmental engineer with bachelor's and master's degrees in mechanical and environmental engineering from the University of South Florida. She also holds a Juris Doctorate from Concord Law School and a master's degree in environmental law and policy from Vermont Law School.

She serves on the boards of the Business Council for Sustainable Energy and the Alliance for Responsible Atmospheric Policy and is a member of the Government Affairs Committee for ASHRAE.

### **About Trane Technologies**

Trane Technologies is a global climate innovator. Through our strategic brands Trane and Thermo King, and our portfolio of environmentally responsible products and services, we bring efficient and sustainable climate solutions to buildings, homes and transportation.
