

Kathleen "Katie" McGinty is Vice President and Chief Sustainability and External Relations Officer for Johnson Controls, the global leader for smart, healthy, and sustainable buildings technology. In this capacity, Katie serves on the Executive Committee of the company and helps drive JCI's top tier sustainability performance including recognition as one of the Global 100 Most Sustainable Corporations, the CDP Leader Band, EcoVadis Gold, and MSCI AAA rating. Katie and her team also work toward government policies to tackle climate change, encouraging smart buildings and energy efficiency. Katie has over 25 years of public and private sector experience, and she is a recognized innovator in clean energy and environmental protection. Katie champions technology development, sustainability, and creative policies to solve tough environmental problems. Her public sector career includes serving as Chair of the White House Council on Environmental Quality and as Deputy Assistant to the President (1993-1998), as Pennsylvania Secretary of Environmental Protection (2003-2008), and as Chair of the Pennsylvania Energy Development Authority (2004-2008).

Katie currently serves on the International Steering Committee of the World Sustainable Development Summit, and on the boards of the Alliance to Save Energy, the Carnegie Mellon Scott Institute for Energy Innovation, the Delaware River Port Authority, the Energy Futures Initiative, and FSEP, LLP. She holds a Bachelor of Science degree in Chemistry from St. Joseph's University and a law degree from Columbia University. She also served as a Senior Visiting Fellow at TERI in New Delhi, India and is the proud recipient of numerous awards and recognitions, including honorary doctorates from Muhlenberg University, Dickinson College, and Clarion State University. She is the Woman of Conservation Lifetime Achievement Awardee (Citizens for Pennsylvania's Future), "Global Leader for Tomorrow" (World Economic Forum), "Business Leader of the Year" (Woman's Network for a Sustainable Future), the "Ansel Adams Award" of the National Wildlife Federation, "Woman of the Year" awardee from the Women's Council on Energy and the Environment, and one of the Top Women in HVAC list of ACHR News.
