MEDIA ADVISORY

In One Week: 2023 Sustainable Energy in America Factbook Release Energy Industry Leaders to Highlight Progress of the U.S. Energy Transition at February 28 Embargoed Press Briefing

Please join the [Business Council for Sustainable Energy](#) (BCSE) and [BloombergNEF](#) (BNEF) on **Tuesday, February 28, 2023 from 2:00 – 3:00 pm ET (new time)** for an **embargoed hybrid press briefing** (in-person in Washington, DC and online) on the release of the eleventh annual edition of the *Sustainable Energy in America Factbook*.

With its market-oriented perspective, the *Factbook* and its findings will be a key resource for monitoring the implementation of recent federal legislation and as a baseline for ongoing coverage of energy, climate and environmental policy and business issues in the months to come.

All content presented at the press briefing will be under embargo until **March 1 at 12:01 am ET**. Participation in this briefing is by invitation-only. [Register here to participate](#), with details on logistics to be provided, including the option of in-person or virtual participation.

About the Sustainable Energy in America Factbook

Each year, the *Factbook* provides comprehensive information and analysis on major sustainable energy facts and trends from the previous year. The *Factbook* includes energy statistics on market growth and contraction and analysis of trends in the energy efficiency, natural gas, renewable energy, and other clean energy segments.

The 2023 *Factbook* will look back on year-on-year dynamics, including which emerging technologies made headway in the past year and whether high costs impacted clean energy investment and deployment. The press event will cover several core benchmarks included in the report – deployment, technology innovation, policy, emissions, and jobs.

At this invitation-only briefing, energy industry leaders will talk about how their businesses and the U.S. economy adjusted to changing circumstances and answer questions about the report and its findings.

- **Alliance to Save Energy** – Paula Glover, President
- **American Gas Association** – Rick Murphy, Managing Director, Sustainable Growth
- **BloombergNEF** – Ethan Zindler, Head of Americas
- **Business Council for Sustainable Energy** – Lisa Jacobson, President
- **Schneider Electric** – Jeannie Salo, Vice President for Government Relations
- **Sempre** – Allison Hull, Director of Federal Government Affairs and Chair, BCSE Board of Directors
- **Solar Energy Industries Association** – Charles Bolden, Senior Director of Congressional Affairs, and Chief Sustainability Officer
- Moderator: **RENEWPR** – Ben Finzel, President

If you have questions or want to add a colleague to the distribution list, contact Lizzie Stricklin at BCSE at lstricklin@bcse.org or 202-785-0507 x 1504. For BNEF-related press inquiries, please contact Oktavia Catsaros at ocatsaros@bloomberg.net.

About the *Factbook* Partners

[BloombergNEF](#) (BNEF) is a strategic research provider covering global commodity markets and the disruptive technologies driving the transition to a low-carbon economy. Our expert coverage assesses pathways for the power, transport, industry, buildings, and agriculture sectors to adapt to the energy transition. We help commodity trading, corporate strategy, finance, and policy professionals navigate change and generate opportunities.

[Business Council for Sustainable Energy](#) (BCSE) is a coalition of companies and trade associations from the energy efficiency, natural gas and renewable energy sectors. The Council membership also includes independent electric power producers, investor-owned utilities, public power, commercial end-users and project developers and service providers for energy and environmental markets. Since 1992, the Council has been a leading industry voice advocating for policies at the state, national and international levels that increase the use of commercially available clean energy technologies, products and services.
