

BCSE Member Requests for the FY2025 Transportation, Housing and Urban Development Appropriations Bill

Links to industry 2025 requests are embedded below.

As a diverse coalition, not all BCSE members endorse or take a position on requests in this document.

Please open the link for each organization below to view their priorities.

[American Clean Power Association](#)

Request for funding at 2024 levels for Port Infrastructure and Maritime Administration.

For more information, contact Diana Godlevskaya at dgodlevskaya@cleanpower.org.

[Fuel Cell and Hydrogen Energy Association](#)

Request for funding for programs administered out of the Federal Aviation Administration (FAA) addressing hydrogen and fuel cell technologies.

For more information, contact Joe Brady at jbrady@fchea.org.

[U.S. Green Building Council](#)

Request for funding to update energy standards as called for under the bipartisan Energy Independence and Security Act to reduce operating expenses for HUD-owned and subsidized properties; to identify and implement opportunities to improve energy efficiency, resilience, and healthfulness of public and assisted housing and lower energy costs for low- and moderate-income residents; and to expand HUD's current voluntary effort to benchmark all HUD-supported properties to provide greater transparency into the state of affordable housing and identify targeted actions to improve energy efficiency and water efficiency.

For more information, contact Ben Evans at bevans@usgbc.org.
