The Honorable Chris Coons  
United States Senate  
218 Russell Senate Office Building  
Washington, DC 20510

The Honorable Kevin Cramer  
United States Senate  
313 Hart Senate Office Building  
Washington, DC 20510

Dear Senators Coons and Cramer:

I am writing on behalf of the Business Council for Sustainable Energy (BCSE) to thank you for your efforts to advance your legislation, the PROVE IT Act, S.1863, through the Senate Environment and Public Works Committee. Council members were pleased to see the legislation reported by the Committee in January of this year on a bipartisan vote.

BCSE advocates for energy and environmental policies that promote markets for clean, efficient, and sustainable energy products and services. Since its founding in 1992, BCSE has been focused on policy adoption that will increase the deployment of energy efficiency, natural gas, renewable energy, as well as energy storage, sustainable transportation, and emerging decarbonization technologies.

BCSE believes that the publication of a U.S. Department of Energy carbon intensity study, and the other data collection required by the PROVE IT Act, will be an important tool to demonstrate that industries in the United States produce high quality products, with low carbon emissions. BCSE applauds your efforts to craft this thoughtful legislation and we support its enactment.

Please let me know how BCSE may be of assistance to you as this bill is being considered by Congress this session.

Sincerely,

Lisa Jacobson  
President

Cc: Members of the Senate Committee on Environment and Public Works
