BCSE Commends Senate Passage of the Bipartisan American Affordability and Jobs Act of 2026, Urges House Action on the Bill this Year

Washington, D.C. – Lisa Jacobson, President of the Business Council for Sustainable Energy (BCSE), issued the following statement in response to Senate passage of permitting reform legislation.

> "For more than a decade, BCSE has championed durable, comprehensive, bipartisan federal permitting reform. The recently Senate-passed Bipartisan American Affordability and Jobs Act (BAAJA) of 2026 represents a generational opportunity to provide greater investment certainty and accelerate the deployment of critical energy infrastructure. BCSE looks forward to working with the House of Representatives as it considers this bill and urges a vote on the legislation this year."
